

Cable TV Digitization

**Applicants for MSO registration in Phase III areas can now
apply up to 6th Feb 2015**

Cable TV digitization in remaining urban areas not covered in Phases I & II is slated for completion by 31st December 2015.

Security clearance from Ministry of Home Affairs, which takes about 3 to 4 months, is prerequisite for the issue of permanent registrations. Therefore applications for MSO registrations for operation in Phase III areas were invited by 21st Dec 2014 so that sufficient time is available to MSOs to operationalise their digital set ups after the issue of MSO registration.

However, keeping in view the requests received in the Ministry, applicants for MSO registration in Phase III areas can now apply up to 6th Feb 2015.
